

Generating the Mind in Practice

Having come flying from a ocean of theory
Of Historical, political...Socio-economic
Upon a mentally captivating space in front of myself
It is my root, the value of collaborative practice
Blue in colour, with one face- from different professions, hands holding in circle,
Embracing the footsteps to Leadership
Adorned with the three letters- IPE
Essence containing the integration of Professions learning from and with.
The holistic collection of CST, practice standards...generating the mind
Through this light I visualize... like bubbles coming forth in water
With pride from my root, now whatever happens
I will act to initiate actions concordant with practice

IPE- Interprofessional education

CST-Critical social theory

Aesthetic Reflection
