

QUEERING CONSENT

March 14, 2017 from 12-2pm

B155 Career Centre at St-James (200 King E)

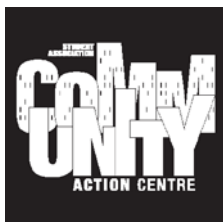

This workshop explores the current landscape of Consent in LGBTQIA+ communities and offers practical tools to understanding and gaining Consent so that participants can better navigate difficult intimate moments and ensure that all acts are consensual. We will explore Consent, intimacy, rejection, desire, kink, gender dysphoria, asexuality, and by-standing to Upstanding through interactive activities and scenario enactments so that participants gain a thorough understanding of how different identities, orientations, and social spaces affect one's access to Consent.
