Week 1: Getting Started!

Online course(s) are available the first week of classes. Once your online course appears, please log in and review the complete contents of any Getting Started or Welcome Start Here folders. Be sure to make note of required assignments, discussions, tests, any other activities and their due dates. Most courses will be organized with Weekly Learning Modules. Read and review the contents of the Week 1 module and complete any activities required during the first week of class. If you have any questions about your online course, contact your professor using the email/message system inside Blackboard or post a question on one of the discussion forums provided inside your course.
