Reasons to Study at George Brown

1 Real-World Experience

Get a firsthand glimpse into your future career. Our facilities, like The Chefs' House and WAVE Clinics, simulate real-world work environments. Enjoy the benefits of experiential learning both in and out of the classroom.

2 Sustainable Actions

We're reducing our eco-footprint through the Good Food Market, campus hydration stations and more. Our Brookfield Sustainability Institute identifies and develops smart solutions to fight climate change.

3 A Pillar of Toronto's Waterfront Revitalization

We're not just taking up space – we're creating it. Our state-of-the-art Waterfront Campus is a cornerstone of Toronto's East Bayfront neighbourhood. In the fall of 2025, our new mass-timber, net-zero carbon emissions building – Limberlost Place – welcomed students and community members.

4 A Vibrant Downtown Setting

Our location in the heart of Toronto provides you with an exciting city backdrop, and access to top employers for field education opportunities. We also have our very own student residence – The George – so you can study and live right in the centre of all the action.

5 Expert Instructors

Get inspired and learn from some of the best in your future field. Many of our faculty members have industry experience and will share their real-world knowledge with you.

6 Informed by Industry

Forget the fluff – gain knowledge you can actually use once you graduate. Our partnerships with over 5,000 industry leaders ensure the skills you learn in class are the ones you'll need on the job.

7 Something for Everyone

Fashion design, critical care nursing, digital marketing – with over 200 programs at George Brown, you don't need to compromise on what you really want to do. Choose a program that's tailor-made to fit your unique needs and interests – whatever they may be.

Program Listing 2027–2028

George Brown Polytechnic offers a wide range of programs and pathways to meet your needs. We continually strive to improve our programs and their delivery. The information contained in this guide is subject to change without notice. It should not be viewed as a representation, offer, or warranty.

Students are responsible for verifying George Brown admission, graduation, and fee requirements, as well as any requirements of outside institutions, industry associations or other bodies that may award additional designations concurrently with, or after completion of, a George Brown program.

Amounts listed are the total of tuition, materials, student service and ancillary fees for the first academic year (Sept 1 to August 31). Your invoice will reflect current year's fees. Estimated fees do not include co-op fees ranging from \$400 to \$600 for programs with a co-op work component.

Applying as a Mature Student

Mature student status is 19 years or older and without an Ontario Secondary School Diploma. Visit georgebrown.ca/mature for details.

English Language Proficiency

All applicants to George Brown Polytechnic must demonstrate an acceptable level of English Language Proficiency. Visit georgebrown.ca/proficiency for details.

International Applicants

Many of our programs are also eligible for international enrolment. Visit georgebrown.ca/intlprograms for more information.

Work-Integrated Learning (WIL)

Students gain experience in a work or professional setting with an employer. This includes co-op, internship, externship, or placement opportunities. Visit georgebrown.ca/wil for details.

Faculty of Applied Science, Construction and Engineering Technology

Turn your ideas into something real. Whether you want to build, design, code, engineer or create smarter solutions, you'll gain the hands-on skills to take on real-world challenges and prepare for what's next.

Explore skilled trades and construction at the Angelo DelZotto School of Construction Management, Apprenticeship and Skilled Trades. Design more sustainable communities at the School of Architectural Studies. Explore AI, cybersecurity and emerging technologies at the School of Computer Technology. Bring ideas to life through engineering and electro-mechanical design at the School of Engineering.

You'll learn by doing in industry-inspired labs, workshops and collaborative spaces, with access to facilities such as the Green Building Centre and Brookfield Sustainability Institute. Whatever path you choose, you'll build practical skills, industry experience and the confidence to turn your ideas into a career.

Our schools

- Angelo DelZotto School of Construction Management
- School of Architectural Studies
- School of Apprenticeship and Skilled Trades

The George Brown difference

Learn by doing, build for the future

Our students don't just imagine solutions, they build them. Whether you're wiring a circuit, designing smart buildings, developing sustainable infrastructure, or coding new digital systems, you'll learn through hands-on labs, real-world projects, and industry-connected experiences that prepare you for the careers shaping tomorrow's world.

Expert faculty, real experience

Our instructors come straight from the fields they teach; professional engineers, licensed architects, Red Seal-certified trades professionals, and experienced software developers. They bring real projects, current technology, and industry insight into the classroom, helping students connect what they learn to what employers need.

Industry connections that matter

We partner with top employers in construction, skilled trades, technology, and design to ensure our programs stay relevant and our graduates stay in demand. Through our Work-Integrated Learning team, students can access mentorship, field placements, networking opportunities, and leadership experiences like the Dean's Ambassador Program. Partnerships with industry also help fund the George Brown Student Awards, which celebrate students who demonstrate technical excellence, innovation, and leadership in their fields.

See more of our facilities on the Virtual Tour

virtualtour.georgebrown.ca

Programs that build careers

From skilled trades to software development, from architectural design to construction management, our programs meet students where they are and help them grow their future.

- Apprenticeships & Certificates build foundational trade skills in areas like electrical, plumbing, carpentry, HVAC, and welding.
- Diplomas & Advanced Diplomas offer technical training in construction, engineering, architecture, computer technology, and manufacturing.
- Degrees like the Honours Bachelor of Technology (Construction Management) and Honours Bachelor of Computer Science combine hands-on experience with advanced theory and leadership skills.

Faculty of Applied Science, Construction, and Engineering Technology

Angelo DelZotto School of Construction Management

Program	Loc.	Length	Start	Tuition	WIL	Admission Requirements	Career Options
Diploma							
<u>T161</u> Construction Engineering Technician	CL	2 yrs (4 sems)	Jan, Sept	\$4,234	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Construction technician/estimator, construction site/project/construction manager, home builder/general contractor, building and home inspector, construction technical sales agent
Advanced Diploma							
<u>T105</u> Construction Engineering Technology	CL	3 yrs (6 sems)	Jan, Sept	\$4,234	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Construction manager, construction technologist, estimator, inspector, project coordinator,
<u>T164</u> Civil Engineering Technology	CL	3 yrs (6 sems)	Jan, Sept	\$4,234	Yes	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Structural design assistant, project planner, estimator for civil works, municipal engineering technology/inspector, civil CAD/BIM technician
Degree							
<u>T312</u> Honours Bachelor of Technology (Construction Management)	CL	4 yrs	Sept	\$9,907	Yes	OSSD with 6 Gr. 12 (U/M) courses min average 65% incl. Eng Gr. 12 (U) min 60%; Math Gr. 12 (U) min 60%. Mature students: please visit program page.	Project coordinator/monitor, site superintendent, building condition assessor/site inspector, construction specialist in building science/claims/quality control/health and safety/project controls, contractor/developer
<u>T314</u> Honours Bachelor of Technology (Construction Management)	CL	5 sems	May	\$9,791	Yes	3-year adv. diploma in Architectural Technology. Min GPA 3.0	Project coordinator/monitor, site superintendent, building condition assessor/site inspector, construction specialist in building science/claims/quality control/health and safety/project controls, contractor/developer
<u>T318</u> Honours Bachelor of Technology (Construction Management)	CL	2 yrs (5 sems)	May	\$9,791	Yes	3-year advanced diploma in Construction Engineering Technology. Min GPA 3.0	Project coordinator/monitor, site superintendent, building condition assessor/site inspector, construction specialist in building science/claims/quality control/health and safety/project controls, contractor/developer
Postgraduate							
<u>T416</u> Building Information Modeling Management	CL	1 yr (3 sems)	Sept	\$9,955	Yes	2- or 3-year diploma or degree in Construction, Civil, Mechanical, Electrical or Landscape Engineering, Architectural Studies, or Interior Design. Plus: Departmental review (resume/interview) required for applicants with 2-year diploma.	BIM modeller, BIM specialist, BIM technologist, BIM analyst, BIM scanning technician
Masters							
<u>T550</u> Master of Construction Management	WF	1 year (3 sems)	Sept	\$14,050	No	4-year (Honours) bachelor's degree in construction management, civil engineering, construction engineering, architecture, interior design, building science or other building related programs; with min GPA of 70% in last 60 credit hours of undergrad study. Note: Applicants who do not meet the academic requirements may be considered based on a combination of academic and industry-specific experience	Project management consultant, senior cost consultant/estimator, owner representative, construction company director, procurement manager, bidding manager, risk manager, claims manager, project advisor, project manager

School of Apprenticeship and Skilled Trades

Program	Loc.	Length	Start	Tuition	WIL	Admission Requirements	Career Options
Certificate							
<u>T165</u> Plumbing Techniques	CL	1 yr (2 sems)	Jan, May, Sept	\$5,585	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Plumber, steamfitter, sprinkler systems installer, gas fitter, sales and distribution
<u>T166</u> Welding Techniques	CL	1 yr (2 sems)	May, Sept	\$8,981	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Welder apprenticeships, manufacturing, fabrication, automotive sector, heavy equipment production, automation, construction
<u>T167</u> Electrical Techniques	CL	1 yr (2 sems)	Jan, May, Sept	\$5,537	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Electrical technician, independent contractor, job estimator, project coordinator, electrical designer
<u>T176</u> Construction Techniques	CL	1 yr (3 sems)	Jan, May, Sept	\$6,423	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Skilled trades, project management, specialized roles like estimating and surveying
Diploma							
<u>T160</u> Heating, Refrigeration, and Air Conditioning Technician	CL	2 yrs (4 sems)	Jan, Sept	\$4,325	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Commercial and residential HVAC/R technician, sales, system balancing and cost-estimator
<u>T180</u> Carpentry and Renovation Technician	CL	2 yrs (4 sems)	Jan, Sept	\$4,587	Yes	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Renovation, general contracting, carpentry, site supervision, estimating, technical sales, home inspections
Advanced Diploma							
<u>T148</u> Building Renovation Technology	CL	3 yrs (6 sems)	Jan, Sept	\$4,593	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Junior estimator, construction renovator technologist, general contractor, construction project manager, technical sales representative
<u>T162</u> Heating, Refrigeration, and Air Conditioning Technology	CL	3 yrs (6 sems)	Jan, Sept	\$4,327	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Consulting for engineering and architectural firms, design/build contractors, commercial refrigeration installation and maintenance, building automation and control companies, HVAC/R manufacturing, sales and distribution companies, You may also pursue construction or mechanical management, specialty contractor

School of Architectural Studies

Program	Loc.	Length	Start	Tuition	WIL	Admission Requirements	Career Options
Diploma							
<u>T132</u> Architectural Technician	WF	2 yrs (4 sems)	Jan, Sept	\$4,461	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Project coordinator, technical representative for building/equipment suppliers, production of computer-aided technical drawings and modelling, technician with builders/developers, property manager
Advanced Diploma							
<u>T109</u> Architectural Technology	WF	3 yrs (6 sems)	Jan, Sept	\$4,461	Yes	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Architectural technologist/assistant, self-employed designer/contractor, project director/coordinator, municipal plans examiner, architectural document production
<u>T178</u> Interior Design	WF	3 yrs (6 sems)	Jan, Sept	\$4,464	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Junior interior designer, technologist with builders, architectural and interior design firms, technical representative for building/equipment suppliers, specification writer, design and colour consultant for builders and retail outlets
Degree							
<u>T320</u> Bachelor of Interior Design (Honours)	WF	1 yr (3 sems)	May	\$11,530	No	3-year advanced Diploma in Interior Design. Min GPA 2.7	Junior interior designer, drafts-person/CAD technician, design consultant, material and supplier salesperson, lighting designer

School of Computer Technology

Program	Loc.	Length	Start	Tuition	WIL	Admission Requirements	Career Options
Diploma							
<u>T141</u> Computer Systems Technician	CL	2 yrs (4 sems)	Jan, Sept	\$4,462	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Computer networking technician, e-commerce and environment support, help desk technician, network administrator, technical support representative
<u>T186</u> Computer Programming	CL	2 yrs (4 sems)	Jan, Sept	\$4,577	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Software developer, web developer, database administrator, quality assurance analyst, technical support specialist
<u>T189</u> Computer Programming – Low Code Development	CL	2 yrs (4 sems)	Jan, Sept	\$4,477	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Low-code/application developer, systems/business process/quality assurance analyst, user experience (UX) designer, digital transformation specialist, automation engineer
<u>T191</u> Computer Systems Technician	Online	2 yrs (4 sems)	Jan, Sept	\$4,462	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Computer networking technician, e-commerce and environment support, help desk technician, network administrator, technical support representative
Advanced Diploma							
<u>T190</u> Computer Systems Technology	CL	3 yrs (6 sems)	Jan, Sept	\$4,302	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	IT support, system administrator, local area network support analyst, repair technician, technical support analyst, network administration, systems analysis
<u>T194</u> Game – Programming	WF	3 yrs (6 sems)	Jan, Sept	\$4,312	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Software/hardware/website developer, ISP and game portal development and maintenance, distribution middleware and tool provider, production servicer, content/IP owner
<u>T177</u> Computer Programming and Analysis	CL	3 yrs (6 sems)	Jan, Sept	\$4,511	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Database administration, systems analysis and design, consulting, web/mobile/full-stack application design and development, data architect (AI/ Machine Learning)
<u>T192</u> Computer Systems Technology	Online	3 yrs (6 sems)	Jan, Sept	\$4,302	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Technical support, web developer, field technician (wireless/cellular service providers), system and network administrator/manager, cybersecurity analyst
<u>T196</u> Game – Programming	Online	3 yrs (6 sems)	Jan, Sept	\$4,312	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Software/hardware/website developer, ISP and game portal development and maintenance, distribution middleware and tool provider, production servicer, content/IP owner
<u>T197</u> Computer Programming and Analysis	Online	3 yrs (6 sems)	Jan, Sept	\$4,511	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Database administration, systems analysis and design, consulting, web/mobile/full-stack application design and development, data architect (AI/Machine Learning)
<u>T198</u> Computing Foundations – AI Solutions	CL	1 yr (2 sems)	Jan, Sept	\$4,337	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Support technician (application, digital solutions, help desk, IT), junior systems support technician, technical support specialist, junior developer (web, Python, software), junior QA tester, junior DB support technician, data support technician
<u>T199</u> Computer Programming – AI Solutions	CL	2 yrs (4 sems)	Jan, Sept	\$4,339	No	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (C/M/U) or Gr. 12 (C/U)	Junior developer (AI application, integration, solutions; machine learning, Python, software, full-stack), junior data engineer, AI or ML support technician, QA analyst (AI) or tester (software quality), application support developer
Postgraduate							
<u>T419</u> Health Informatics	CL	1 yr (3 sems)	Jan, Sept	\$8,311	Yes	2- or 3-year diploma in health sciences or IT/ computer science, Plus: min one year of work experience as health-care or IT professional (resume required); OR degree in health sciences, computer sciences, or related (no work exp. required). Graduates from other fields of study may be eligible. Please see program page for details.	Project/program coordinator, service desk analyst, data, product, or privacy analyst, clinical informatics coordinator, junior business analyst

Program	Loc.	Length	Start	Tuition	WIL	Admission Requirements	Career Options
<u>T405</u> Information Systems Business Analysis	CL	1 yr (3 sems)	Jan, May, Sept	\$9,511	Yes	2- or 3-year diploma or bachelor's degree in computer science, commerce, engineering or related field. Plus: min one year of relevant work experience (resumé required).	Business analyst, systems analyst, informatics consultant, information systems quality assurance analyst, Management Information Systems (MIS) analyst
<u>T415</u> Embedded Systems Development	CL	1 yr (2 sems)	Jan	\$6,859	No	Please see program page for details.	Embedded systems developer, IoT engineer, firmware developer, hardware/software integrator, robotics programmer, systems designer
<u>T426</u> Artificial Intelligence for Robotics	CL	1 yr (2 sems)	Jan	\$9,162	No	2-year or 3-year diploma or degree in computer science, engineering, machine learning or a related field. Familiarity with Python strongly recommended.	Robotics engineer/technician, AI engineer, computer systems developer/programmer, software designer/engineer, software systems integration engineer
<u>T428</u> Digital Product Management	CL	1 yr (2 sems)	Jan, Sept	\$4,845	No	2-year or 3-year diploma or degree in finance, healthcare, education, engineering, government.	Junior product manager, digital product manager, product analyst, project manager, business systems analyst
<u>T431</u> Applied A.I. Solutions Development	CL	1 yr (3 sems)	Jan, May, Sept	\$9,015	Yes	2- year or 3-year diploma or degree in Information Technology, Computer Science or related. Recommended: Python programming skills. Applicants with diploma/degree in unrelated field will require departmental review (questionnaire, resumé, online interview) and Python programming skills.	data scientist/analyst, data management specialist, machine-learning engineer/technologist, artificial intelligence practitioner, full-stack data scientist
<u>T433</u> Cyber Security	CL	1 yr (3 sems)	Jan, Sept	\$13,152	No	2- or 3-year diploma or degree in Information Technology, Computer Sciences or related OR 2- or 3-year diploma or Degree in any field PLUS one year of related work experience (resume required)	Systems security analyst, informatics security analyst, network and security administrator, IT security analyst, cybersecurity engineer
<u>T440</u> Mobile Application Development and Strategy	CL	1 yr (3 sems)	Jan	\$6,265	Yes	2- or 3-year diploma or bachelor's degree in Information Technology, Computer Sciences or related.	Mobile developer, iOS developer, Android developer, front end developer, mobile engineer
<u>T465</u> Cloud Computing Technologies	CL	3 sems	Jan, May, Sept	\$5,418	Yes	2-year or 3-year diploma or degree in mathematics, business, computer science, economics, engineering or science.	Junior cloud computing engineer, data engineer, data scientist, cloud solutions engineer, cloud security developer

School of Engineering Technologies

Program	Loc.	Length	Start	Tuition	WIL	Admission Requirements	Career Options
Diploma							
<u>T173</u> Mechanical Technician – CNC and Precision Machining	CL	2 yrs (4 sems)	Sept	\$6,469	Yes	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Aerospace, nuclear power, health care, transit and OEM automotive parts companies, construction, building, and electrical/electronics, tool and die, mould making, and general machining, CNC precision machining and toolmaking
Advanced Diploma							
<u>T182</u> Electromechanical Engineering Technology – Power and Control	CL	3 yrs (6 sems)	Jan, Sept	\$6,346	Yes	OSSD with Eng Gr. 12 (C/U); Math Gr. 11 (M/U) or Gr. 12 (C/U)	Energy, power and control systems, robotics and automation, manufacturing, processing, computer industries
Postgraduate							
<u>T420</u> Smart Building Design and Operations	WF	1 yr (2 sems)	Jan	\$4,645	No	Diploma, advanced diploma, degree (or equiv.) in comp sci., electromech., environmental eng., building science, sustainability, architecture, or other equiv. field. Applicants without the req'd education credential may be considered with a minimum of 2 yrs of relevant work experience.	Smart building control engineer, building automation engineer, systems integration architect, IoT system integration lead

Faculty of Business, Creative Industries and Culinary Arts

Whether you're driven by big ideas or business plans, this faculty gives you the tools and experience to turn ambition into opportunity. Home to the Schools of Management, Marketing and Financial Services, Design, Media and Performing Arts, and The Chef School, it offers a unique mix of academic rigour, hands-on learning, and industry engagement. You'll study in professional studios and live learning labs across George Brown's downtown Toronto campuses, learning from instructors with real-world experience. With strong ties to top industry professionals and a focus on innovation, graduates leave with the technical skills, critical thinking, and portfolio-ready work that today's employers value—whether your path leads to launching a business, producing a film, designing a brand, or leading a culinary team in a world-class restaurant.

Our design students shine on the national stage

George Brown Polytechnic's School of Design continues to earn national recognition for student excellence, placing at the top of the Association of Registered Graphic Designers (RGD) Student Awards in two recent competitions.

In 2024, the School of Design was named the number one design school in Canada based on results from the 2023 RGD Student Design Awards, with George Brown students earning seven awards and 13 honourable mentions. The school continued its strong performance in the 2025 RGD Student Awards, tying for first place with five winners and 14 honourable mentions.

These achievements reinforce the School of Design's reputation as a leader in design education in Canada. Its consistent success in national competitions reflects the strength of its industry-connected programs, experienced faculty and emerging design talent.

Skills in the kitchen can take you far

George Brown Polytechnic students continue to make their mark in skilled trades and culinary competitions at home and around the world. In 2026, students earned 11 medals at Skills Ontario and Skills Canada, demonstrating excellence across disciplines from mechanical CAD and sheet metal work to baking and pastry arts.

That success extended to the world stage, with culinary student Luca Assad (left) making George Brown history as our first competitor—and Medal of Excellence winner—at the 2026 World Skills Competition in Shanghai. Her journey reflects the opportunities available to students through hands-on learning, mentorship and connections to industry.

That pathway from education to industry and elite competition is exemplified by Culinary Management graduate Negus King. After winning gold at Skills Ontario and Skills Canada in 2024, King earned a place on Culinary Team Canada and is now preparing to represent Canada at the 2028 Culinary Olympics in Stuttgart, Germany.

Faculty of Community Services and Interdisciplinary Studies

Every academic journey starts somewhere, and at the Faculty of Community Services and Interdisciplinary Studies, you'll find the support and educational pathways you need to move forward – wherever you are starting from.

Home to the Schools of Social and Community Services, Deaf and Deafblind Studies, Early Childhood, Behavioural Science, Work and College Preparation, ESL and Immigrant Education, General Arts and Sciences, and the Department of English and Communication, as well as the Community Partnerships Office, this Faculty is grounded in principles of social justice, equity, and inclusion, is high engaged in providing a rich learning environment for all students, and is focused on widening access to education through community collaboration.

Through programs, community partnerships and applied learning environments designed to turn possibility into opportunity, you'll experience learning that is relevant, inclusive and empowering. With guidance from dedicated faculty committed to your success, this is where your next chapter begins – and where your future of possibilities takes shape.

Our schools

- School of Behavioural Science
- School of Deaf and Deafblind Studies
- School of Early Childhood
- School of ESL and Immigrant Education
- School of Liberal Arts and Sciences
- School of Social and Community Services
- School of Work and College Preparation

By the numbers

1st

and only degree of its kind in Canada – Honours Bachelor of Interpretation (American Sign Language – English)

100%

of career-focused programs in the Faculty of Community Services & Interdisciplinary Studies offer at least one field education opportunity

1,000⁺

children enrolled in our 14 GTA lab school centres – Ontario's largest network of college-run child care facilities

50⁺

years of delivering academic upgrading programs for Deaf and non-deaf students

750⁺

agency partnerships across the Greater Toronto Area

We value accessible education

At George Brown, we believe education should be accessible to all. That's why we offer a range of tuition-free and part-time programs designed to open doors to new learning and employment opportunities – empowering people and building stronger communities.

Unique in Canada

Our two tuition-free Augmented Education programs, Culinary Skills and Construction Craft Worker, are designed to reduce barriers to education and employment for those dealing with complex mental health concerns and/or addiction challenges.

georgebrown.ca/augmented-education

Upgrade your skills

Our tuition-free Academic Upgrading programs provide you with advising and support to determine your best pathway to academic and employment success. We offer free courses in math, science, communications, and career exploration, as well as an upgrading program for Deaf participants delivered in ASL. For details, email

upgradinginfo@georgebrown.ca or visit georgebrown.ca/upgrading.

See more of our facilities on the Virtual Tour

virtualtour.georgebrown.ca

Learn by doing

Imagine going to school and actually practicing the job you'll be doing after graduation. That's how we prepare you for today's workplace. Across the Faculty, more than 750 agency partnerships support hands-on learning, and every career-focused program includes at least one field education opportunity.

Real child care settings

School of Early Childhood students learn in our 14 lab school child care centres, working alongside trained professionals in environments serving children and families. Additional placements connect students with schools, hospitals and community programs.

Practising communication

The ASL lab includes video practice stations where students record, review and refine signing and interpreting skills before progressing to supervised community experiences and internships.

From theory to practice

Students in Behavioural Science and Social and Community Services apply classroom learning through field education with community agencies across the GTA. Develop skills in assessment, data collection, counselling, advocacy and community support while building professional networks.

Building practical skills

Programs such as our College Vocational Program combine classroom instruction with on-the-job skills development. Other programs emphasize small classes, career exploration and practical preparation for further education or employment.

¹ Must complete the program within three consecutive academic years.

Faculty of Health Sciences

Health care is evolving – and the Faculty of Health Sciences at George Brown Polytechnic is evolving with it. By collaborating with industry partners and staying attuned to emerging trends in treatment and technology, we continually adapt our programs to meet the shifting demands of today's health care sector. Located at the Daphne Cockwell Centre for Health Sciences – a LEED-certified landmark on Toronto's waterfront – this purposefully designed facility supports team-based, interprofessional practice, education and research. With high-tech labs and cutting-edge simulation spaces, collaborative classrooms and informal learning spaces that mirror today's health care environments, you will build in-demand clinical skills, develop adaptability and graduate ready to contribute to a connected, interprofessional, patient-focused workforce.

The George Brown difference

Student Success team

George Brown provides supports to promote students' academic success and overall well-being, including counselling, peer mentorship, workshops for study skills and exam prep, and career services, as well as dedicated anti-racism, equity and human rights support.

Expert faculty

Health Sciences faculty bring relevant sector experience to the classroom and share their industry experience and insights with students. Many are leaders in their field.

Industry connections

We work closely with our sector partners to ensure the training we provide matches the skills employers need now, prepares students for the future of work, and develops graduates ready to hit the ground running in the workplace. Each semester, our Clinical Placement team facilitates placements for over 3,400 Nursing and PSW students at leading hospitals, long-term care facilities, health clinics and community organizations.

See more of our facilities on the Virtual Tour

virtualtour.georgebrown.ca

Accredited Simulation Centre

We are proud to be the first polytechnic and nursing school and simulation centre in Canada to earn accreditation from the Society for Simulation in Healthcare (SSH) in teaching and education. This cutting-edge facility offers over 23,000 square feet of dedicated simulation space. Complete with a variety of true-to-life practice situations, we leverage this space to enhance our students' learning experience in a safe and controlled environment.

The Simulation Centre includes:

Six 12-bed simulation practice Labs (1), four high-fidelity suites (2), one operating room (3), the health e-home (a fully functioning bachelor apartment) (4), three demonstration kitchens (5), and high and low fidelity mannequins (6).

How to Apply

In Ontario, domestic students apply to all polytechnics and colleges through **ontariocolleges.ca**. You can apply for up to five programs, with three at George Brown, through one application. Most programs at George Brown are eligible for early offers, which means depending on your date of application, you may hear back as early as **November 1, 2026**. For highly competitive programs, make sure you apply by **February 1, 2027**, for equal consideration for an available space.

1. Find the program that's right for you

Research programs online through our Program Finder tool. You can compare programs side by side using our Program Comparison feature.

Consider attending an upcoming open house or information session to meet faculty and staff, and have your questions answered.

2. Complete the application process at Ontario Colleges

Apply online for up to five programs (up to three at George Brown) and send in your academic documents if required. For high school applicants, grades will be transmitted electronically by your school.

3. Track your application status online

Applicants can track their application status at **stuvew.georgebrown.ca**.

4. Complete any additional application requirements and accept your offer

In some cases, our programs require an assessment, interview, audition or questionnaire. We will let you know if that's required for your program.

See our step-by-step guide at
georgebrown.ca/apply

Connect with Entry Advising

There's a lot to think about when applying. Sometimes you know what you're interested in but don't know how that can translate to a career. Other times, you just don't know where to start. Good news – our Recruitment and Advising team can help!

Entry Advisors offer group sessions and workshops about some of the most common questions. They also provide individual sessions to help support your individual needs. They'll share advice, discuss your options, and set you up for your next steps.

Visit georgebrown.ca/advising to learn more and book your appointment.

Have a quick question?

Send an email to student.recruitment@georgebrown.ca and one of our team will get back to you.

Other ways to learn about George Brown Polytechnic

Take an in-person campus tour

Enjoy a guided tour of our campus buildings, common areas, learning labs and more.

georgebrown.ca/tours

Check out our virtual tour

Available 24/7 and featuring all three of our main campuses as well as our residence and satellite locations.

virtualtour.georgebrown.ca

Get the specifics on your program

Attend an upcoming info session to talk to faculty and staff and have your questions answered.

georgebrown.ca/info

Explore your options with an advisor

It can be hard to decide. Discover the best program fit for you through a 1-on-1 or group advising appointment.

georgebrown.ca/advising

Not sure where to start?

Our recruitment webinars explore topics from choosing the right program and understanding your options, to navigating the application process and finding ways to pay for your post-secondary education.

Register for an info session – learn about the program(s) you're considering, and have your questions answered by our knowledgeable staff and faculty.

We offer a free one-week program called CHOICES to help you identify your strengths and career goals, and educational pathways that may be open to you.

Program Pathways and Transferring Credits

No matter your stage of post-secondary education, George Brown Polytechnic has options for you. Many programs provide pathways to start or advance your learning and specialize your focus. These options include the following:

Pre-programs

offer smaller class sizes and built-in support to help you decide what to study. If you are trying to figure out what career path you want to take, our foundation programs in community services and health sciences are for you! Learn more at georgebrown.ca/preprograms

Fast-track programs

provide an effective way to complete a diploma program in a shorter time. At George Brown, fast-track programs take two forms: Continuous 12-month delivery and advanced standing in eligible programs if you have a post-secondary credential.

Bridging programs

allow students to build on previous education with advanced standing in one of George Brown Polytechnic's honours bachelor's degree programs. Applicants with a post-secondary diploma in a related discipline may be eligible. Learn more about both fast-track and bridging options at georgebrown.ca/fast

We also provide many options for diploma-program students to transition into degree programs at George Brown in a 2+2 model. For example, students who earn a diploma or advanced diploma in marketing can transfer into George Brown's Honours Bachelor of Commerce (Digital Marketing) program. Which can be a great way to build upon your studies. Our Transfer Guide lists opportunities for transfer both within George Brown and with our many partner colleges and universities across Canada and worldwide.

Learn more at georgebrown.ca/transfer

Financial Assistance

At George Brown, we believe that finances shouldn't be a barrier to receiving an education.

We have resources available to help you pay for your education, and our Financial Aid team is here to provide support. Connect with us at georgebrown.ca/financialaid

Options can include:

Awards, Scholarships and Bursaries

Our awards program is designed to help students in financial need and those who do well academically. There are many awards offered through George Brown and external partners.

Canada Learning Bond

Are you an applicant or current student with a Registered Education Savings Plan (RESP)? You may be eligible for the Canadian Learning Bond.

Emergency Funding

Sometimes things come up that we don't plan for. When this happens, emergency funding may be available. Contact Financial Aid to access the application.

Ontario Student Assistance Program (OSAP)

OSAP provides financial assistance through loans (money you pay back) and grants (money you don't have to pay back).

Tuition Payment Plans

Payment plans are available to new and returning domestic students and returning international students. Plans allow students to pay their semester tuition in three instalments.

Work Study Program

This program provides students with on-campus job opportunities for up to 15 hours a week.

The George Student Residence

The George offers furnished two-bedroom suites with kitchenettes, high-speed internet, group study areas, a community kitchen, laundry facilities, lounge, game areas, and a patio with barbecues.

Academic year term (September to April) estimated rate: **\$11,550** based on the 26–27 rate.

Residence fees include all utilities, phone (with local calling), cable television, internet access, and a fully furnished suite.

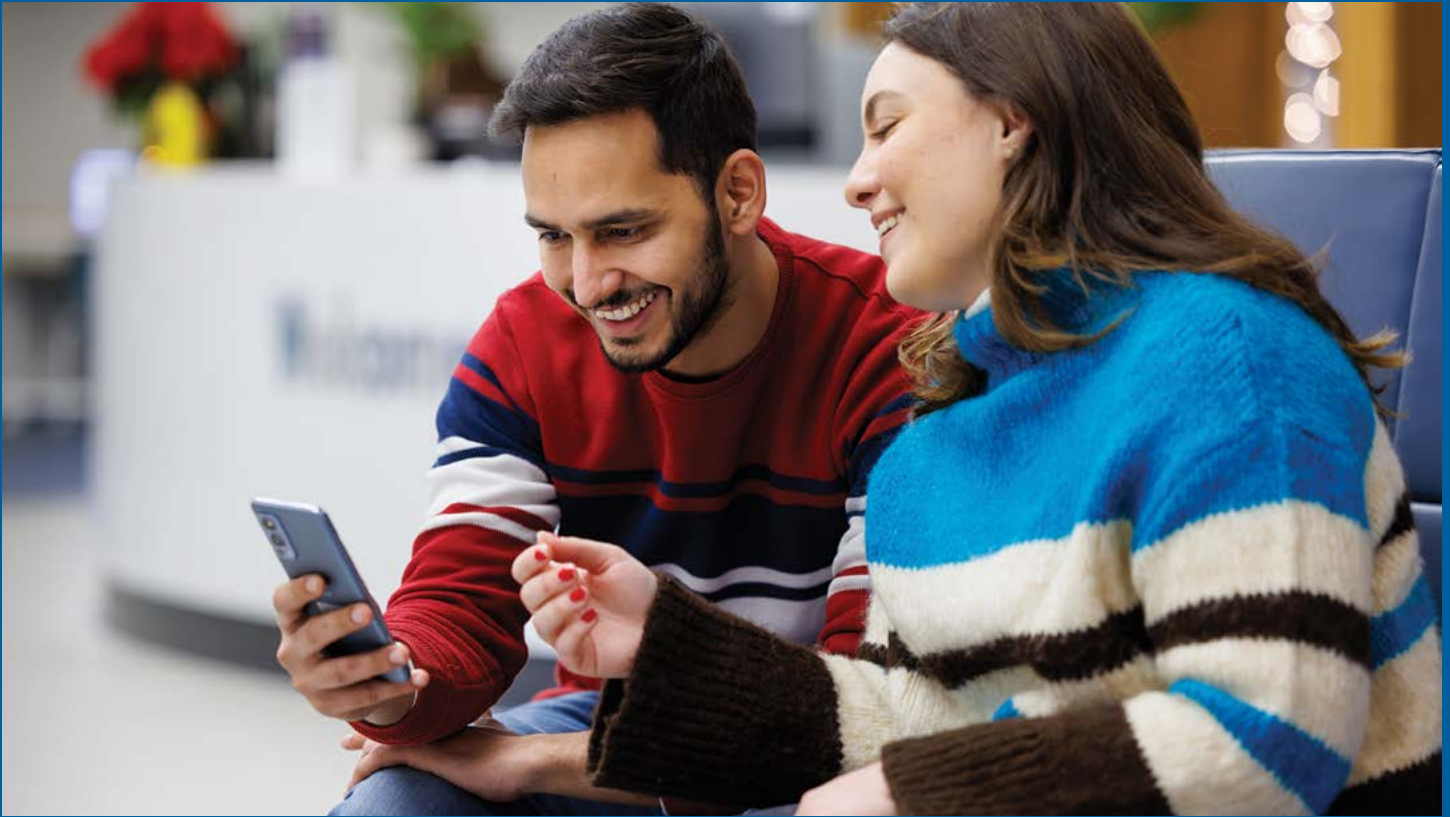

georgebrown.ca/residence

Through an affiliated partnership, George Brown Polytechnic students who apply for residence may also be eligible for placement at Parkside Student Residence, a well-established housing option in downtown Toronto.

Enjoy contemporary, fully furnished suites, an exceptional dining program, and a dynamic student community designed to enhance your academic journey at George Brown.

Funding for First-Year Students

Did you know we award over \$2 million in scholarships, awards and bursaries to first-year students each year?

Many of our degree programs offer renewable entrance scholarships of up to \$2,500 a year based on academic achievement. Check out georgebrown.ca/entrance for more details.

We offer specific awards by academic area and for different demographics, including Black, Indigenous and international students, as well as students who are single parents.

Student Life

Your experience at George Brown is about much more than the classroom. Our Student Life team has you covered from day one. From student clubs to athletics and the Student Volunteer Squad, we have many opportunities for you to connect.

Career Services

The Career Services team supports job seekers and employers in the George Brown community with workshops, 1:1 support, job postings, on-campus opportunities, and more.

Career Coach

Explore your career future with Career Coach! Discover careers that match your interests, explore job opportunities and salaries, and see how George Brown programs can help you reach your goals.

Five ways to get involved

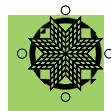

Student Clubs

We have 39 student clubs, including entrepreneurship, gaming, and religious/cultural options.

Black Students Success Network (BSSN)

A dedicated team to help Black students at George Brown thrive.

Indigenous Student Centres

All three campuses feature spaces for our Indigenous community to connect.

Campus events

Our Student Life team hosts a range of events throughout the academic year, including Orientation, on-campus fairs and more.

Student Life Volunteer Squad

Want to meet new people and give back to the community? Join our Student Life Volunteer Squad to expand your network while helping others.

Student Services

You are joining a welcoming, diverse, and inclusive community, which we are continuously working to nurture. Whether you're a new student or a returning one, a new semester can feel overwhelming. We offer a wide range of services including counselling, career, and housing support, as well as dedicated anti-racism, equity and human rights services.

Our teams are compassionate, non-judgmental and here to help you thrive.

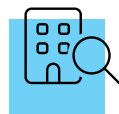

Discover all we have to offer at georgebrown.ca/services

Specialized support

Counselling and Well-Being

None of our students have to go it alone – we offer general information on mental health, reducing stress and building resiliency. As well as counselling and community referrals.

Housing

We know Toronto, and have done the leg work to help you find housing resources on- or off-campus. Including our own student residence, The George.

International Student Services Hubs

Our Casa Loma and St. James Campuses are home to International Student Services Hubs to help George Brown students at any stage in their learning journey and with any permit or visa questions.

Office of Anti-Racism, Equity and Human Rights Services (OAREHRS)

Promoting fairness, equity, accountability and transparency at George Brown, our office manages human rights complaints and raises awareness of diversity and inclusion.

Peer Mentor+

A peer-to-peer program helping students find support and resources.

Accessible Learning Services

Academic support and services for all students who have disabilities or ongoing medical concerns.

Athletics & Recreation

Go Huskies! We are proud to offer a comprehensive range of varsity sports, fitness centres and classes, drop-in activities and recreational leagues.

We're here to enhance well-being and campus life – and to help our talented athletes achieve their best.

For full-time students, athletic centre memberships are included in student fees. Students can access a range of fitness classes in yoga, cardio, strength training and more.

Swing by our drop-in gym for a round of pickleball, volleyball or soccer. Or join us for an upcoming varsity game. Visit georgebrown.ca/athletics

Soccer (M & W)
Volleyball (M & W)

Our Campuses and Facilities

Our campuses are integrated with Toronto's downtown, providing students with unparalleled access to work-integrated learning opportunities, including internships, co-op placements, and networking experiences with industry leaders.

1 St. James Campus

Located in the heart of downtown Toronto, the St. James Campus serves as George Brown Polytechnic's flagship location and is home to community and social work, hospitality and culinary, media, liberal arts, and academic upgrading programs. Spread over six buildings, this bustling urban campus puts students at the centre of Canada's largest city, where the energy of commerce, culture, and innovation converge.

2 Casa Loma Campus

This campus' three buildings specialize in construction and trades programs, computer technology, fashion, and dance, offering students hands-on learning environments that mirror real-world industry settings. The campus combines the charm of a residential neighbourhood with the learning spaces required for technical and real-world learning.

3 Waterfront Campus

The stunning Waterfront Campus reflects George Brown's dedication to education and innovation through cutting-edge labs, classrooms, and learning spaces. Comprising three buildings, it includes the Faculty of Health Sciences, the Schools of Design, Architectural Studies, and Early Childhood Education, as well as both Business schools.

4 The George Student Residence

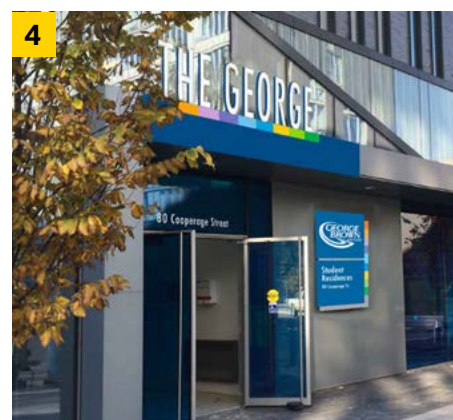

A short walk from both the St. James and Waterfront campuses, The George provides students with a home-away-from-home experience in one of Toronto's most dynamic neighbourhoods. This modern residence facility offers comfortable, safe, and convenient living spaces designed specifically for the student lifestyle, fostering community connections while maintaining privacy and independence.

Satellite Facilities

We have other locations in Toronto where students attend classes: prosthetic and orthotic programs at Sunnybrook Health Sciences Centre; theatre and performing arts at the Young Centre for the Performing Arts; and fashion certificate programs at the Fashion Exchange.
