**MEDICAL REQUIREMENTS (Mandatory except the Flu shot)
(DOCTOR/PHYSICIAN/HEALTH CARE PROFESSIONAL TO COMPLETE, SIGN & STAMP)**

Ontario legislation specifies certain surveillance requirements for those entering into healthcare practice settings. The Program policy was developed in accordance with the communicable disease surveillance protocols, specified under the Public Hospitals Act, to meet the requirements of our students' placement settings. This process is necessary to ensure that our students protect their health and safety, and the health and safety of patients, visitors, employees and other students. Other than the influenza vaccine, the completion of this information is not optional, and all sections must be completed as outlined. Our placement partners have the right to refuse students who have not met their immunization standards. If, for medical reasons, your client is unable to receive a required immunization or Chest X-ray, a medical note of this exclusion must be provided on the form.

Note: If you **do not** have any immunization records, you must contact your doctor's office or your regional Public Health to obtain a copy of your old immunization records.

1. TETANUS, DIPHTHERIA & PERTUSSIS (Tdap/Adacel/Boostrix valid every 10 years) & attach a yellow card/proof of immunization record

Date of last Tetanus, Diphtheria & Pertussis (Tdap/Adacel/Boostrix) booster ____/____/____ (mm/dd/yyyy)

2. SEASONAL FLU SHOT (recommended every year in November/December)

Influenza virus vaccine is available free of charge from health services in the fall or can be obtained from your healthcare provider. Students are encouraged to submit evidence of the vaccination in December. If you know or suspect that you have an allergy to eggs or other vaccination preservatives or components, please discuss your options with your HCP. Do not worry about the flu shot at this time; you may submit your completed health form documents to ParaMed without the flu shot record. GBC will do a flu shot clinic in November/December. The influenza vaccine is not mandatory; however, if an outbreak occurs at an assigned agency, and flu vaccine was not received, you may be denied access to the facility, thus jeopardizing the successful completion of your placement.
