Section	Description	Information
2.4	Describe any other hands-on experiences included in this program	Students are involved in real-world projects for one or two days per week with our corporate partners. They develop proposals and then work in teams to plan projects, set schedules, and achieve goals. As a primary requirement of the course, Team Project: Network Design, students work with telecommunications industry partners on cutting edge technology projects. The industry partners include such prominent names in industry as Rogers Wireless, Telus Mobility, Bell Mobility, and IBM Canada to name a few.
2.5	Is the curriculum fixed, or is it possible to develop an individual plan?	The program curriculum is generally fixed.
2.6	How long has the school been offering this program?	Please contact the program coordinator.

3 EMPLOYMENT OUTLOOK

Section	Description	Information
3.1	National Occupational Classification (NOC) occupational group	Computer Network Technicians
3.2	NOC Code	2281
3.3	NOC Skill Level	B
3.4	What are the labour market conditions for this occupation?	Please check the GBC Career Coach website for job/labour market information for this program/career. Career Coach offers current, local information about all jobs in the GTA, including an overview of each profession and a list of currently available positions in a given field. The data are not limited to industries supported by programs offered at

		George Brown College; however where we do offer relevant programs, students are presented with options for consideration that lead them into our own program pages. http://cc.georgebrown.ca/
3.5	Are other licenses or certifications required for this occupation?	Industry certification may be required by some employers.
3.6	Within the last 3 years, what percentage of students completed this program?	Approximately 100 percent.
3.7	What percentage of students who completed this program are employed in jobs related to the program? Are the jobs full-time, part-time or contact?	Data for the program shows that 62 percent of graduates are employed, 33 percent of employed graduates are employed in a related field, 48 percent in full time positions. (Graduate Employment Report, 2017-2018 of students who graduated in 2016-2017)
