

The Values of the Equity Statement

George Brown College

EQUITY – We are all equal and different. We will work to level the playing field so that those groups that are disadvantaged by sexism, racism, heterosexism, ableism, ageism etc. have access to time, space, resources, information, education, power etc.

DIVERSITY – We are all different and those differences make our class richer and stronger.

SAFETY – Violence harms us all and we can't learn as well if we're scared. We will use non-violent and non-judgmental ways to address conflict and express ourselves.
