Graduates of the **Project Management** graduate certificate program will be prepared to manage project scope and change, provide goal setting, project control, project staffing, risk management, utilize project management tools and perform other functions in careers that incorporate project management or in stand-alone project manager positions.

Graduates will have demonstrated their knowledge, job skills, soft skills and abilities related to business in general and project management in particular.

This learning experience will enable graduates to demonstrate:

- Implementation of Project Management Institute knowledge areas such as processes, lifecycle phases and the embodied concepts, tools and techniques in order to achieve project success
- Adaptation of projects in response to issues that arise internally and externally
- Implementation of general business concepts, practices and tools to facilitate project success
- Application of project management practices to the launch of new programs, initiatives, products, services and events relative to the needs of stakeholders

PART TIME STUDY OPTIONS

Part-time study options are not available for this program.

FIELD EDUCATION OPTIONS

Students will take a field-based, application-driven course where they participate in the coordination and execution of a real industry project. Leveraging learning from their project management courses, students can expect to gain experience in the following areas:

- defining requirements
- creating project plans
- tracking budgets
- coordinating meetings
- monitoring progress
- assessing risks
- managing stakeholders
- implementing management tools
- preparing reports
- conducting themselves in a professional manner

THE INDUSTRY

INDUSTRY FEEDBACK:

"George Brown's Project Management field education course has allowed us to work with students on new projects that would have otherwise been delayed. The PM students, who had great talents and a diverse work and academic background, used their project management tools and planning processes skills to help Retail Council of Canada develop important operational procedures in membership and event management.

I would strongly recommend private and not-for-profit businesses take advantage of this valuable program that offers students real-life projects to test their skills for a career in project management and that also benefit participating companies."

Diane J. Brisebois, President & CEO, Retail Council of Canada

George Brown College is recognized as a Global Registered Education Provider with the Project Management Institute³ (PMI®). Graduates of any of the George Brown College courses listed on PMI's Registered Education Provider portal⁴ will have satisfied the education requirements necessary to apply to the Project Management Institute (PMI®) for either the Certified Associate in Project Management (CAPM®) or the Project Management Professional (PMP®) certification.

PMI®, PMP®, and CAPM® are registered marks of the Project Management Institute, Inc.

PROGRAM STANDARDS AND LEARNING OUTCOMES

The graduate has reliably demonstrated the ability to:

1. Manage the scope, cost, timing, and quality of the project, at all times focused on project success as defined by project stakeholders.
2. Align the project to the organization's strategic plans and business justification throughout its lifecycle.
3. Identify project goals, constraints, deliverables, performance criteria, control needs, and resource requirements in consultation with stakeholders.
4. Implement the PMI project management knowledge areas, processes, lifecycle phases and the embodied concepts, tools and techniques in order to achieve project success.
5. Adapt projects in response to issues that arise internally and externally.
6. Interact with team and stakeholders in a professional manner, respecting differences, to ensure a collaborative project environment.
7. Utilize technology tools for communication, collaboration, information management, and decision support.
8. Implement general business concepts, practices, and tools to facilitate project success.
9. Reflect on their role and effectiveness as a leader and follower.
10. Apply appropriate legal and ethical standards.
11. Adapt project management practices to meet the needs of stakeholders from multiple sectors of the economy (i.e., manufacturing, technology, consulting, government, arts, media, and not-for-profit organizations).
12. Apply project management practices to the launch of new programs, initiatives, products, services, and events relative to the needs of stakeholders.
13. Appraise the role of project management in organizational change.

“All professors at George Brown College were very professional and helpful. I learned a lot from them: how to implement projects, how to plan and monitor them, and finally, how to close projects. One of the most important learnings of the program was how to communicate with clients and stakeholders at a high level. I enjoyed the studying process a lot. The network that I’ve earned while studying helped me get a job after graduation.”

Vakhid Mamedov (Project Management graduate, 2017)
