Graduates of this program will be able to deploy BIM applications and implement BIM Management processes in any organization involved in the procurement, design, construction and operation of building facilities.

Key features of the program:

- Class sizes are limited to provide increased access to a state-of-the-art BIM lab facility and interaction with course facilitators.
- Classes in Semesters 1 and 2 are scheduled for Thursday afternoon, all day Friday and all day Saturday to assist students who wish to work part-time or continue to work in their current employment.
- Semester 3 is a field placement that provides you with real-life opportunities to practice the skills learned in Semesters 1 and 2.

PART TIME STUDY OPTIONS

Part-time study options are not available for this program.

PROGRAM STANDARDS AND LEARNING OUTCOMES

The graduate has reliably demonstrated the ability to:

1. Assess requirements for construction industry Building Information Modeling (BIM) planning and management for Integrated Project Delivery (IPD).
2. Formulate strategies for leadership, team-building and personnel management.
3. Analyze BIM processes in integrated project delivery from project conceptualization to facilities management.
5. Execute appropriate BIM management techniques to facilitate integrated project delivery.
6. Apply team-building skills in an interdisciplinary setting and implement in projects collaborative design and construction solutions.
7. Deploy BIM computer platform to create virtual building information models.
8. Integrate knowledge of various suites of BIM applications into project design, construction and facilities management.

YOUR CAREER

Upon graduation, students will be able to practice in various project environments in positions that may include:

- Project Model Manager
- BIM Manager
- BIM Specialist
- BIM Coordinator
- BIM Construction Officer
- BIM Project Manager
- Energy Modeller

ADMISSION REQUIREMENTS

- Bachelor's Degree or 3-year Diploma in Construction Engineering (Structural, Civil, Mechanical, Electrical) or Architectural Studies.
- Proof of English language proficiency (www.georgebrown.ca/englishproficiency) required where International transcripts are submitted *

*Please note that Domestic applicants who are submitting International transcripts require a Canadian equivalency evaluation. This can be obtained through ICAS (International Credential Assessment Service) at icascanada.ca or WES (World Education Services) at wes.org/ca3

ENGLISH LANGUAGE PROFICIENCY

Applicants with international transcripts who do not provide English proficiency test results must test at the College level in the George Brown College English assessment to be considered for admission.

Please visit georgebrown.ca/englishproficiency for more details.

COURSE EXEMPTIONS

College or University credits may qualify you for course exemptions. Please visit georgebrown.ca/transferguide for more information.

INTERNATIONAL (VISA) STUDENTS

Visit the International Admissions4 page for more information.
