

CONSTRUCTION MANAGEMENT PROGRAM (FOR INTERNATIONALLY EDUCATED PROFESSIONALS) (POSTGRADUATE) (T403)

PROGRAM NAME	Construction Management	TUITION	\$8,924.00* ‡
COURSE CODE	T403	ADDITIONAL COST	
SCHOOL	Angelo DelZotto School of Construction Management		*Amounts listed are the total of tuition, materials, student service and ancillary fees for the first two semesters of program starting in Fall 2018. Fees are subject to change for programs starting in Fall 2019 and at later dates.
CENTRE	Construction Engineering Technology		‡September semester fees are paid separately.
LOCATION	Casa Loma Campus		International students: Visit the International Fees and Related Costs ² page for more information.
DURATION	1 year (3 semesters)		
EXPERIENTIAL LEARNING	Work Practicum Semester		
STARTING MONTH	January		
CREDENTIAL	Ontario College Graduate Certificate		
YEAR OF STUDY	2019-2020		
METHOD OF STUDY	FT		
APPLY TO	Ontario Colleges ¹		

This Construction Management graduate certificate program is designed to meet the needs of internationally trained construction managers and construction professionals, enabling them to apply their prior knowledge and skills and qualify for in-demand, rewarding jobs in the Canadian construction industry.

Our program meets the construction industry's needs with a unique combination of:

- Courses offered on Thursday afternoons, and all day Friday and Saturday, allowing students to continue working during the program
- Communications upgrading
- Industry-approved courses that prepare students for construction management positions in the Canadian construction industry
- Canadian construction industry orientation and experiences

This three-semester graduate certificate program provides applied education for construction management positions in the construction sector. Candidates will receive graduate-level training that builds on their internationally acquired education and experience to enable them to successfully enter the Canadian construction workforce.

EXPERIENTIAL LEARNING

Work Practicum Semester

YOUR FIELD STUDY OPTIONS

This three-semester graduate certificate program includes a work term semester to help students make the transition into the job market.

PROGRAM STANDARDS AND LEARNING OUTCOMES

The graduate has reliably demonstrated the ability to:

1. Develop and use strategies to promote continuous professional learning in the construction industry.
2. Monitor and support workplace health and safety practices and procedures which are compliant with current legislation and regulations.
3. Assess construction project operations for compliance with contractual obligations, applicable laws, standards, bylaws, codes and ethical practices in construction methodology.
4. Analyze and monitor construction processes to ensure that sustainability practices are implemented in accordance with contract documents, industry standards and environmental legislative requirements.
5. Establish and manage relationships among diverse project stakeholders to achieve construction project goals.

6. Manage the production, storage, retrieval and communication of project-related digital documents according to best practices, to meet construction project deadlines and goals.
7. Perform a feasibility study to inform decisions in the planning phase of a construction project.
8. Schedule, manage and evaluate the progression of construction projects by applying the principles, practices and tools of construction project management to complete projects on time and within budget.
9. Prepare estimates and manage procurement processes to control costs in accordance with best practices in construction project management.
10. Develop and oversee quality assurance and control processes involved in the completion of construction projects to meet project specifications and industry quality standards.
11. Analyze and manage project risks to mitigate their impact throughout the construction project lifecycle.
12. Formulate human resource management strategies to optimize personnel requirements for construction project completion.
13. Build and lead multidisciplinary teams throughout the construction project lifecycle to accomplish construction project goals.

REQUIRED COURSES

SEMESTER 1

Code	Course Name
BLDG1172	Communication for Construction Managers
BLDG1174	Construction Plans and Estimating 1
BLDG1175	Construction Industry Practices
BLDG1177	Construction Surveying
BLDG1187	Pre-Construction Management Practices
BLDG1196	Construction Methods and Materials
STS1170	Career Portfolio

SEMESTER 2

Code	Course Name
BLDG1173	Construction Contract Law
BLDG1180	Ontario Building Code
BLDG1184	Construction Project Management
BLDG1186	Construction Estimating 2
BLDG1189	Work Term Preparation
HSAF1182	Construction Health and Safety

SEMESTER 3

Code	Course Name
BLDG1191	Work Term

YOUR CAREER

There is a demand in the rapidly growing and increasingly specialized construction industry for construction project managers. Today's complex building industry requires professional managers who can function successfully in multidisciplinary teams consisting of project managers, architects, engineers, regulators, environmental consultants, urban planners, contractors and trade contractors.

Managers also require a comprehensive understanding of quality management systems and sustainable building practices, and a deep and broad technical background in the construction industry.

Some examples of positions include:

- Project Coordinator
- Estimator
- Site Superintendent
- Inspector
- Construction Coordinator

ADMISSION REQUIREMENTS

- International Bachelor's Degree* or Three-year Diploma* in Civil Engineering, Construction or Architecture
- Demonstrated relevant work experience – a resume and an employer's reference are required
- Qualified applicants must complete an interview (an online, video interview)

***Please note that Domestic applicants who are submitting International transcripts require a Canadian equivalency evaluation. This can be obtained through ICAS (International Credential Assessment Service) at icascanada.ca or WES (World Education Services) at wes.org/ca³**

ENGLISH LANGUAGE PROFICIENCY

George Brown College ESL Level 9; TOEFL 550 (Paper), 213 Computer, 80 Internet-20 each skill band; IELTS 6.0 - 5.5 each skill band; MELAB 80; CAEL overall 60; CLB 8

COURSE EXEMPTIONS

College or university credits may qualify you for course exemptions. Please visit georgebrown.ca/transferguide for more information.

“Wherever I go, if I say I’m from George Brown, there will be several people in the room who say ‘Oh yes, me too, let’s talk about it.’ It’s a great conversation starter.”

Alena Tokareva (Graduate, Construction Management [for Internationally Educated Professionals])

“The students from this program are fantastic. They are knowledgeable and come with a desire to work hard and do well. They can fill a short-term position for their work term, and their potential as long-term employees is very high.”

Soha Bastani (Deltera Inc., member of the Tridel Group)

“This program helped me in many ways. I will remember the diverse atmosphere, friendly environment and support I received during my studies at George Brown.”

Prakash Singh (Graduate, Construction Management)

“I have a full-time position as a project co-ordinator at Bondfield Construction, where I completed my placement. The three-month placement was an excellent complement to my studies at George Brown.”

Andres Izquierdo (Graduate, Construction Management)
